

The background of the entire page is a photograph of a large, cascading waterfall feature in a swimming pool. The water is a vibrant blue, and the spray at the base is white. In the background, blurred figures of people can be seen swimming. The Axon logo is centered in the upper half of the image, overlaid on a semi-transparent white diagonal band. The logo consists of the word 'AXON' in a bold, black, sans-serif font, with a blue circular icon containing two white wavy lines representing water. Below 'AXON' is the text 'Swimming Pools' in a smaller, black, sans-serif font, and further below is the word 'Trading' in a very small, black, sans-serif font with wide letter spacing.

Who we are?

Established in 2013, Axon Swimming Pools focus on providing flexible and cost-effective solutions based upon the diversified specialised services which are totally run through our in-house capability.

At Axon Swimming Pools we provide a full range of facilities management services which are delivered through qualified management and operations team.

We take pride of working with many customers supporting their Swimming Pools services division in maintaining a high quality of services which has increased their employee engagement and enhanced their wellbeing in the workplace.

Vision

“To be the industry leader in providing efficient FM solutions to clients through experience and efficiency underpinned by Compliance”

Mission

“ Enable our customers to focus on their core business while we take care of their workplace experience, safety and the lifecycle of their assets”.

CEO's Statement

At Axon Swimming Pools, We all stand behind the results with the main target to provide our customers with a safe and secure environment enabling them to focus on their core business while we take care of the rest.

We are small enough to care, big enough to deliver.

Hasan Al Omar
CEO

Why we are different?

Our Health & Safety culture in addition to our training plans allow us to render an exceptional service in accordance with the industry best practices and in compliance to the local laws and regulations.

We invest massively in our staff training and wellbeing, and this helps us in mobilising successfully and achieving a steady state operation at our client facilities in a timely manner. Our Quality control team functions across the lifecycle of each contract to ensure the standards are met and our promises to the client are fulfilled.

Our vision is to always have a safe operation. We do not tolerate any unsafe practices and we ensure that our people, our clients and our community do not get harm due to work we do.

We are committed to promoting the wellbeing and health of our people. We believe that healthier employees are happier employees and that what drives our operational excellence.

Core Values

Safety First.

Agility

Service
Excellence

Integrity

Commitment
to each other

No compromise on the safety of our people, our clients and our community.

We challenge the status quo with open minds, focus, and speed.

Experience and efficiency underpinned by compliance.

Always do the right thing

Empower our talents and support each other.

Vision

“To be the industry leader in providing efficient FM solutions to clients through experience and efficiency underpinned by Compliance”

Mission

“ Enable our customers to focus on their core business while we take care of their workplace experience, safety and the lifecycle of their assets”.

Where We Are

Axon's managed services solution combines account excellence, proven systems and processes with unprecedented levels of client focus.

We have developed a robust our system management platform to source, implement and assure the delivery of service to the precise requirements of our clients.

We deliver the procure the most effective solutions to clients' service needs by market testing every service and ensuring effective co-ordination of activities and resources.

Our approach is based on honesty, transparency and professionalism with our clients, providing:

- Demonstrable value for money
- Clear probity in transactions
- Independent management of service delivery
- Auditable quality and management
- Avoidance of perceived conflicts of interest between the service supplier and the management team.

We've already market-tested the right suppliers, and we know how to tailor our service provision intelligently and efficiently so that you always receive quality and value for money, whatever services are appropriate to your business.

We can work as a subcontractor or we can act as principal contractor, where we take on the total cost and contract risk. The flexibility of our model means that we are able to provide different commercial models, in line with our client's specific requirements, including fixed price, cost plus and guaranteed maximum price.

Axon operates with total transparency to give clients confidence that our solutions are flexible and scalable, representing true value for money.

Good management couples powerful ideas with real experience. In our work with blue-chip clients we've proved that by creating a 'management overlay' your organization becomes far more effective than the traditional attempts to improve this or that individual service line or service discipline.

This 'overlay' means that the management structure is able to provide genuine flexibility in terms of service range, scope, scale and location.

Maintaining the core functionality of your property is the bedrock of a successful performing enterprise or environment. Working as a partner to your business, our MEP and technical services team can function as either a multi-part or single service model. We provide services for home owners and tenants as well as commercial clients and mixed-used developments.

Our service delivery proposals can include either ad hoc reactive visits or planned visits (planned preventative maintenance). We also provide a 24/7 helpdesk service and emergency cover for contract customers.

MANAGED SERVICES

Designing

Once you reach out to us via phone call or online form, we will arrange a time to meet. Our designer will meet you at your home or business and learn about all the design-related items such as your tastes and requirements for swimming pool, Jacuzzi, water feature, fountain, with all Amenities (Showers, Toilets, and Change-rooms) We survey the site before any design work can be started.

Pool Construction

Our team of professional pool builders constructing bespoke swimming pools in the UAE, for both residential and commercial clients, so have a wealth of experience and knowledge.

We provide a wide range of swimming pool construction options, for all budgets, using the latest industry technology, techniques, and equipment and we'll work closely with you to build your dream swimming pool using only the finest materials to ensure high quality, superior finish.

Our Services

Pool Renovation

Axon swimming Pools has been in business to providing our clients with professional equipment repairs or replacement to give you the pool you have always dreamed of. For all of your equipment needs, you can rely on the professionals.

SERVICE WE PROVIDE:

Pool Renovations - Tile Repair - Crack Repair - Ground Pool Repair - Plaster Repair - Resurfacing - Coping Repair.

**Structural Crack
Pool Repair Service**

If you have a residential or commercial pool, it's crucial to invest in swimming pool crack repair services. It's important to avoid cracks appearing in your pool as it can cause permanent issues to your pool's structural integrity.

Axon Pools offer a complete pool repair solution for structural cracks, chipping, holes, and corrosion, as well as surface deterioration caused by delamination.

**Leak detection, and
Rectification**

Axon Swimming Pools LLC has invested in the latest leak detection technology to assist in pinpointing leaking underground pipework. We understand the stress and worry a leaking pool can produce, excessive water consumption, ground settlement caused by leaking water, however many leaks can be identified and repaired using a simple process.

Nearly 75% of pool leaks can be resolved within a couple of hours by simply checking the components and fittings that cause the most common leaks.

**Circulation and filtration
maintenance**

To maintain operation active you should deal with an expert company in this field.

Axon Swimming Pools provide our clients with highly trained and experienced pool technicians using the latest equipment to keep your pool healthy and refreshed.

Electromechanical and Plumbing Services

Our technicians are excellent at troubleshooting all electrical and mechanical faults related to heaters, pumps, filters and lights and perform all maintenance and replacement operations efficiently and easily, whenever required. We also offer installation of new heating/cooling systems.

Scheduled maintenance and preventative maintenance planned by our technical team on these units ensure optimum performance without any breakdowns and extend the life of the units to many more years.

Water Testing

Testing is the first step to check for perfect water and perfect water balance.

It is more necessary to test the chemical levels regularly on an interval. Also, keep a note of a fact that the range of chemical levels will change quickly after rain. So make sure to keep an eye on your water balance. Once the water balance is up-to-date, the life of it will increase. Ideally, you should test the water in your pool every day, but this is not possible for most pool owners because of the hectic schedule of daily living.

Cleaning and Routine Maintenance

We offer great value swimming pool cleaning in Abu Dhabi packages using expert, fully trained staff.

Swimming pool cleaning will keep your pool crystal clear, hygienic and safe.

Axon Swimming Pools provide our clients with highly trained and experienced pool cleaners using the latest equipment. We offer regular swimming pool cleaning services, as well as full deep clean and our experts can work on both indoor and outdoor pools.
